Cuban Reciprocity Legislation in the Form of a Regular Bill Providing Reduces Roles.

Forecast for the Two Houses. Annual Report on National Parks in California.

WASHINGTON, Nov. 8.—[Exclusive Dispatch.] Speaking of the coming legislation at the extraordinary session of Congress, Speaker-to-be Joseph G. Cannon said today; "There is complete harmony between the President and the Republican lessers as to the work of the extraordinary session. The leaders will cooperate with the President in expediting such action as will make Cubau reciprocity effective.
"It is my opinion that Cuban reciprocity legislation will be enacted in the form of a regular bill, providing for such reductions in duties as are stipulated in the treaty. This seems preferable, in order that there may be no possible violation of constitutional requirements. Not more than a week will be required for action in the House, and adjournments will then be taken every three days until the Senate has concluded its part of the work.

"It is too early to say anything about the work of the regular assion. It seems to be the general opinion, however, that the main work will be in

NATIONAL PARKS.

REPORTS FROM CALIFORNIA.

18Y THE ASSOCIATED PRESS-P.M.I

WASHINGTON, Nov. 8.—In his annual report. Capt. Charles Young, acting superintendent of the Sequois and General Grant National Parks, in California, in which many giant trees are located, urges the acquisition by the government of the land in those parks, now owned by private individuals. In Sequoia Park, where are many large tracts thus owned, and after waijing in vain for years for the government to purchase their property, the owners are beginning to sell off the large timber. REPORTS FROM CALIFORNIA.

are beginning to sell off the large timber.

"Many of them are tired of waiting," says Capt. Young. "These big trees grow close to the country road. The owners have cut them by the wholesale and put the lumber upon the market, and where once was a fine forest of magnificent glants, there is now but devastation and ruin in the shape of stumps and sawdust on either side of the high road. It is but just to the owners and for the best interest of the government that the purchase of these patented lands within the parks are to be continued."

the numerous strikes which have been carried on in Columbus in the past year, the Manufacturers' Association has adopted a new form of contract to be presented to their employes, and hereafter they will be dealt with only of as individuals. No objection is to be offered to their affiliation with labor unions, and men are to be employed will the contract, in which he agrees to treat with his employer only in matters relating to wages, hours of work and the like. In other words, he must agree to act in all matters connected with his employment as an individual, and not in connection with any one else as a member of the union.

Several of the factories have been closed lately, and the new contract goes into effect tomorrow in Reeves & Co's plant, which is one of the largest manufacturing concerns in the city. On their part, the manufacturers argee to hear and redress all grievances and to pay for the one-year wage atipulated in the agreement. Many of the union employes of Reeeves Company have signed the contract, but some of them have not, saying that it is contrary to the laws of the union, and they will not sign it. The company feels confident of having enough men tomorrow to start the plant.

He says the lands can be secured for reasonable prices. Capt. Young says game is increasing.

Maj, John Pitcher's report on Yellowstone Park is devoted large? to the condition of the game in that preserve. He recommends that provise is be made for feeding game in the park in the winter. The danger of loss by starvation, he says, is increasing yearly, owing to the fact that the country around the park is settling up, thus limiting the range. He thinks it would not by a difficult matter to feed the antelope and sheep, as their winter range is close to Fort Yellowstone. He places the aumber of antelope in the park at about one thousand. The mountain sheep have increased considerably in number in the past year, and there are now over one hundred in the park. The bear seem to be about as numerous as a year. hundred in the park. The bear seem to be about as numerous as a year ago. They have done no harm to anyone during the past season. The deer seem to be increasing more rapidly than any other same in the park, at least they are becoming tamer and more fearless than any other species. The new buffalo herd, which is under the immediate charge of C. J. Jones, is doing exceedingly well, but the increase in the herd this year was not as great as was hoped for.

Maj. Pitcher says it is of the greatest importance that the boundary lines of the park, in addition to being surveyed, should be so thoroughly marked as to render it impossible for anyone to cross the line without knowing that he has entered the reservation.

Martin Loew Succumbs to Rough Treatment at University of Maryland Room-mate Found Unconscious.

(BY THE ASSOCIATED PRESS-P.M.1 BALTIMORE (Md.) Nov. 8.—The po lice are investigating the death of Martin Loew, 27 years old, a student in the dental department of the Uni-versity of Maryland, whose lifeless body was found today in his room at his boarding-house. His room-mate, Ephraim Stone, 22 years old, was lying unconscious beside the bed. Loew is from Silesia, Germany, and Stone hails from Cape Town, South Africa. Loew, it is said, has relatives in New York City. His body is at the morgue. It is said that the men were initiated last week into the Phi Psi Chi, a college fraternity. From bruises on the bodies of the two men it would seem that they had been roughly handled, and Stanley B. Smith of St. John, N. B., president of the fraternity, was arrested tonight on the technical charge of assault. Twenty-five members of the society have been cited to appear before the Coroner's Jury to testify.

Late tonight, Stone made a rambling statement as to the experience of himself and Loew during last view. his boarding-house. His room-mate

BY DIRECT WIRE TO THE TIMES. NEW YORK, Nov. 8 .- [Exclusive Dispatch.] Among Democratic mem-bers of Congress there is a story that W. Bourke Cockran is not to have clear sailing for the Democratic nomination to succeed George B. McClellan as Representative from the Twelfth District, even if he wants it.

Two other men have been suggested, and they are both residents of the dis-trict. These are former Gov. James Campbell and former Representative Charles A. Towne. Campbell was Governor of Ohio. He came to New York more than ten years ago to retrieve his fortune, which he spent in Ohio politics in one of the hardest campaigns the State ever knew. Towne has been living in New York for about three years. He was the

Republican Representative from Min-nesota who left his party in 1896, and was nominated by the Populists in 1960 on the ticket with Bryan, only to retire later in favor of Adlai E. Staven-

asssuming that the secular world has been conquered for Christ: but it has been conquered for Christ: but it has been deluded. The church with her arms full of prerogatives and rights and vested interests is at last growing uncomfortably conscious of the fact that something has happened, and it has; she has lost her hold upon the souls of people. Whenever in the past the church has been a power in the world, she has been a power in the world, she has been able to show to men that they needed her, and what she could give. Now, the Christian churches are bidding by clevel bribes for the suffrage of men. They imply that they are willing to do almost anything to secure support. Grotesque themes are considered in the pulpit, and feeble efforts at the world's masterpleces are attempted in the building of an operahouse centrally located. grotesque themes are considered in the pulpit, and feeble efforts at the world's masterpleces are attempted in the choir, to draw the congregation within the church door. In Chicago a cold luncheon is to be served as a bribe to the worldly. In Brooklyn a pastor will wary the monotony of his sermon with a sentimental solo. In Jersey City the church idea has been ebandoned to make way for a vast auditorium and clubhouse. The church undertakes in the present day to provide cheap theaters and soup, kitchens and libraries, and a thousand and one things, and all this that she may win people. My friends, when the church has reached the point where to hold her place she must set up a puny rival to the vaude-ville and offer a free concert to bring men to worship, and her clergy must invent curious conceits to arrest the attention and divert the masses, something is seriously wrong somewhere, and the cell.

cated in Pasadena, has taken definite form at the hands of the pro.noter, George H. Frost, who asserts that he will build the operahouse on Colorado street near the Santa Fé tracks.

Frost's plans include the remodeling and enlarging of the buildings already on the property and the building of new ones. The structure will have storerooms on the ground floor. Work cannot be begun for one year as there are present leases on the property which cannot be reverted.

The Lowe Operahouse has been handicapped on account of its location so far from the center of the city, and Mr. Frost, who has been connected with the Lowe theater for several years, is confident that a place of amusement centrally located would prove successful. Stole Another's Hat.

Ed Robinson, a tough little negro, was arrested at 4 o'clock yesterday morning by Patrolman Sam McKenzie on a charge of petty larceny, which may be changed to that of robbery. W. F. Voorhees, whose home is at No. 114 North Olive street, was walking along Second street between Main and Spring, when the negro and several of his companions attacked him. Voorhees is lame, and defended himself as best he could. Robinson snatched his hat and then the crowd ran down Mott alley. The case was reported to the police, and within ten minutes Robinson was found wearing the stolen hat. his companions were also arrested.

in a drunken fight in an adobe house on East Ninth street beyond the Santa Fe tracks at 11 o'clock lust night, Mike Clavarelli, an Italian, was stabbed in the legs, and his brother, Tony, received cuts on his right hand and mouth. The wounds in Mike's legs were three shallow cuts in the back of his right thigh, and one in the rear of his left leg above the knee. The men who are alleged to have done the cutting are Mechell De Vivi and Mike Dalessandro, who lives at No. 2204 Hunter street. Detectives searched the eighborhood where the quarrel occurred, but were unable to get a definite idea of the cause of the trouble or to find the men responsible for the blood-letting.

Will Render His Opinion.

Superior Judge F. W. Ewing of Ventura county will occupy the bench in Judge York's department of the Superior Court this morning for the purpose of delivering his decision in the famous case of Hatch and Brown vs. Miller. This is the case in which Attorneys D. T. Hatch and H. D. Brown sued Attorney John M. Miller, their former law partner, for an accounting and division of a \$10,000 fee alleged to have been paid Miller as a result of the legal services rendered by the firm in connection with litigation in which the Yellow Aster mining properties at Randsburg were involved. Miller presented the rather novel plea that the \$10,000 was simply a present to his wife, but his partners appealed to the courts to compel Miller to settle with them. Judge Ewing heard the case some time ago and took it under advisement. He reached the city last night for the purpose of rendering his decision in open court today. Will Render His Opinion.

about him and told them to prepare to take to the boats.

"Preparations for abandoning the vessel were carried on coolly and systematically, with the result that when everything was ready the passengers, were first placed in the boats and the crew followed. The boats were cut loose from the steamer, and the crew inanned the oars, keeping the boats in the track of coasting vessels, in the hope that they would be picked up. All during the night, the boats were buffeted about by the sea, the waves breaking over them and drenching those in them.

"It was a frightful night, and the suffering of the shipwrecked persons were terrible. The storm did not decrease during the night, and daybreak found the boats, which had kept closely together all night, out of sight of land and not a vesse I within sight. All during Friday and during the night, the unfortunates kept watch for a friendly sall or the smoke of a steamer. Hope was rapidly deserting them when we sighted the boats and bore down upon them. It was with great dimculty that we got them aboard our vessel. Not long after the Titania was sighted, and the passengers, who numbered nine, and the Nelson's crew were transferred to her and taken to San Franciaco."

## MOSQUITOES IN OIL A TREAT IN EGYPT.

[SY DIRECT WIRE TO THE TIMES.]

ONDON, Now. 8.—[Exclusive Dispatch.] An organised campaign against the mosquito has been carried on in Ismeflia. Lower Egypt, with results which should be encouraging to the residents of New Jersey. First, all possible breeding grounds of the insects were incated, stagnant waters were drained, and cisterns were treated with petroleum, which, floating, prevents the fly from reaching the surface at the critical time of transformation. By these measures, the pest has been appreciably lessened, and aminiar measures are now being adopted at Cairo and other specially mosquito-ridden centers.

In Choosing a Piano

> How can one judge as to which piano he should buy; which piano will give the most satisfaction? This is a very simple question, if one takes a moment to think. You are safe in choosing a piano with a name the whole world knows-the world does not buy and use an unworthy instrument.

## The Vose Piano

is one of the best khown and best made instruments in the world. It has a marvelously sweet tone, a wonderful action and is an instrument with fifty years of experience and study back of it. ne who buys a Vose Piano is getting a standard instrument.

## POLYPUS CUT FROM THE KAISER'S THROAT.

[BY THE ASSOCIATED PRESS-P.M.]

BERLIN, Nov. 8.—(By Atlantic Cable.)

Bell Emperor William yesterday underwent an operation for the removal of a polypus from his larynx. The operation was performed by Prof. Moritz Schmitz, and was entirely successful. The only inconvenience suffered by His Majesty is that he has been enjoined not to speak unfill the wound caused by the operation has been healed. The bulletins announcing the result of the operation caused much excitement even among court of fields, who had no suspicion that His Majesty was suffering from any affection of the throat. The following bulletin was issued this morning:

"The Emperor yesterday went for a manuncement:

"The Emperor yesterday went for a count von Buelow, the imperial Chandra there is no pain or other discomfort in the throat. His Majesty's temperature this morning was \$8.2; pulse, 60."

The surgeons expect Emperor William will be out of doors in a week. He, has arranged a hunting trip for November 37.

The Emperor himself appears not to have known of the growth in his larynx until a few days ago, and to have suffered no discomfort from it. The following is an authorised account of the operation, as given to have suffered no discomfort from it. The following is an authorised account of the operation was performed by Prof. Morits Schmidt, and was most successful. COL LANKERSHIM MAY ERECT NEW BUILDING.

PLANS BEING LAID BUT ARE NOT YET MATURE.

Hotel Will be Completed Within Six Months-He Believes Probable Lumber Rate War Will at Once Stimulate Building Here.

"When my hotel building is complet-ed," said Col. J. B. Lankershim last night, "I shall probably be ready to announce a new project of a similar kind equal in magnitude to the hotel, if not larger. It will be located here in Los Angeles, but the details are not yet sufficiently worked out to warrant me in saying anything more definite than this just now." Col. Lankershim is at the Angelus

He expects to have the roof on his new hotel by the end of the presen week, and the building will be completed within six months and possibly

pleted within six months and possibly sooner.

Speaking of the probable lumber rate war to follow the entrance of the Pactific Coast Company into the local field. Col. Lankershim said:

"Competition is the life of trade, and we may expect lower lumber prices, temporarily at least, when the Pacific Coast Company begins operations. The announcement of this company's intentions will undoubtedly stimulate huilding operations immediately, as many men who have abandoned projected buildings on account of high prices of materials will go ahead with their plans.

"But I do not see how Los Angeles could be much livelier than it is at present. During the past two years this has been probably the most active section of the globe. On my tour of the world I found considerable building going on everywhere, but in no place, either in this country or foreign lands, was the general construction activity so marked as it is right here. The business standing of the men who are most heavily interested in Los Angeles enterprises is ample assurance of the substantial char-

SOUTH PASADENA.

For several weeks past there has been a growing sentiment among the citizens of South Pasadena in favor of clapging the name of the mulcipality. It is claimed that as the city is entirely independent of Pasadena, and as there is not now, 2:1d probably never will be any prospect of annexation to that city, the name is misleading, and this city, should select a distinctive name and stand on its own merits. Since this discussed. Those who are in favor of joining forces with an other municipality say that they would much prefer to become a part of Greater Los Angeles rather than to consider a union with Pasadena; but the majority seem to prefer the continuance of an independent municipality, where the taxes can be used for the special improvement of this particular section.

BRYAN IN AN UNENVIABLE ROLE.

Commenting in a recent issue upon the position in which William J.

Bryan has been placed by the revelations which have been made in complexition with the will of the late Philos mention with the will of the late Philos mentions also falls upon the public—the vast

R. Bennett, the Will of the late Prints B. Bennett, the New York Mail and Express apity said:

"The revelations concerning the will of Philo S. Bennett do not exhibit William J. Bryan in an enviable or commendable light. Those followers who have been wont to idealize their peerless leader as a stern and unrelenting champion of what he believed to be an economic truth, who have respected and admired him as a disinterested, unselfish patriot, cannot escape a shock at this spectacle of one accepting doles from the living and encouraging bequests from the dead.

"There have been precedents for the support of public life by private contribution of men whose talents were of recognized value to the nation, but whee lacked the business ability to earn for themselves adequate incomes, or who had encountered financial reverses, not through their own fault, but through misfortune. There have been perhaps more examples of such support in literature than in politics. But for Mr. Bryan, the plea cannot be entered that he lacks money-making capacity. In political adversity he has prespered exceedingly. He has coined a private fortune out of his public advocacy of a financial fallacy. He has persuaded into his own pocket the contributions of a defeated minority of his countrymen. Doubtless he has worked hard for his wealth, and those who dissent from his theories have never made other than good-natured comment upon his capacity for transmuting them into money.

"There should be an instinctive revealt, both manly and delicate, against accepting money for services not rendered. This proposition does not bear upon the disposition of the legacy at present under judicial consideration. But it does apply to the several gifts that Mr. Bryan has certainly been placed before the public in a most unenvi-

didate for President."

Mr. Bryan has certainly been placed before the public in a most unenvisable light, as regards his connection with this affair. While there has been no evidence of undue influence, on his part, nor of any action that could be justly characterized as morally culpable, the affair, as revealed in the testimony, has shown Mr. Bryan in a man and rather unexpected role, which testimony, mas snown air. Dryan in a new and rather unexpected role, which must needs be, to say the least, some-what dislitusioning to those who have been wont to regard Mr. Bryan as just "a little lower than the angels."

Commissioner Wiggins reports a great amount of work accomplished, however, during his few days with Commissioner Flicher in San Francisco, and the first shipment of fruit from Californie was sent out. It consisted to a carload of apples, to be put in cold storage in St. Louis to await the opening of the exposition. Another will follow this week from the middle portion of the State, and a third consignment of apples and hardy vegetables will go from Southern California. The matter of the amount of space to be allotted California has been a vexing one of late, as, since it was first allotted, the exposition management has sought to cut it down, much ogainst the will of the California commission. Mr. Wiggins stated last night that the matter has been readjusted so that this State retains all its original \$50,000 square feet of floor space save one block. This is much more than has been allotted to any other State.

Unworthy Life.

"An Unworthy Life" was the topic of Rev. C. J. Hall at the Memorial Baptist Church last night. Prior to the church service an open-air meeting was held at the corner of Main and Nineteenth streets, Rev. C. C. Pierce and Rev. C. J. Hall conducting it. This was a new departure in evangelism for this church, but the large crowd who listened to the songs and the addresses testified to the great need of this kind of work. At the close of this open-air service a number of the church men and women handed out cards of invitation and a great crowd filled the church to its utmost capacity. These evangelistic services will be continued all this week, a chorus choir will assist and an orchestra will lead the singing. A goodly number have already feeded.

Dr. McIntyre's Lecture.

Hereby Dr. Robert McIntyre's lecture sermon at the First Methodist Church last night after every inch of available space, including standing room, had been filled.

So great was the crush that in several instances when a number of people came in together they found one seat, and then divided the use of it among the members of the party, each getting a brief rest and then standing to give friends a chance.

Dr. McIntyre's subject was the "Holy Land," and his graphic description of the places and events upon which the scriptures are founded was itstened to with the closest attention. The famous divine has spent much time in the land of the Savior, and he spoke with a knowledge that could not be acquired by any amount of reading or study.

He described at some length the difference in the customs of the people of the Orient and the Occident, and demonstrated how a knowledge of the customs of the people of the Orient and the Occident, and demonstrated how a knowledge of the customs of the papel of the tholy Land would elucidate many of the sayings that otherwise seem vague and uncertain, or even appear to convey a different idea from that which is seen by one familiar with Oriental civiliance.

In the land of the Savings that otherwise seem vague and uncertain, or even appear to convey a different idea from that which is seen by one familiar with Oriental civil.

Inames declared that it was impossi-ble, although they had actually ridder on such a boat. Their accepted the ories proved that such a means of pro-pulsion was not possible. That was silly deduction.

"The church has too often asked converts to accept a creed before presenting the life of Christianity, although Christ taught that 'the life is the light of men.' Not first of all, what must I think to be saved, but what must I do to be saved? The temptation of the student is to seek nothing but negative results in religious study. No man has a right to be content until he has positive convictions as to the outcome of any opurse of mental effort, Analysis is

## TEMPERANCE CAMPAIGNERS.

Two Weeks of Union Meetings by W. C. T. U. Federation.

Sunday Usit to a Busy Saloon by Mrs. H. T. Griffith.

Series of Evening Addresses. Prof. A. A. Hopkins Speaks on Modern Barabbas.

The Los Angeles Federation of Woman's Christian Temperance Unions, with Prof. A. A. Hopkins as their main speaker, last night opened a two weeks' campaign for the revival of interest in temperance and the work of their organization. Meetings are to be held in all parts of the city, and arrangements have been made for a union demonstration of the churches at the Boyle Heights Methodist Church next Sunday evening. The Los Angeles Federation of Wom

Boyle Heights Methodist Church next Sunday evening.

The initial meeting was held last night at the First Baptist Church, and the auditorium was well filled. Mrs. Hester T. Griffith, president of the City Federation, presided, and Rev. H. G. DeWitt, D.D., assisted in the serv-

Mrs. Griffith raised mild excitement by an opening address in which she described her work of the afternoon at the corner of First and Main streets, and her visit to the Mineral saloon, where she saw large streams of men constantly entering. She said she wondered whether the place was running as a restaurant and so went in to find out about it. She saw tables with little pieces of bread, and big hottless of beer and other drinks, and the men pouring in to this "restaurant" for refreshment on a Sunday afternoon. She spoke of the extensive business done by some of the city saloons, and said that one of them boasted of having cleared \$15,000 during the past year. Despite this, and the streams of non Mrs. Griffith saw yesterday whe were possessed with an unquenchable thirst, she confidently predicted that the time would come when there will not be a saloon in the city, and no bars in the hotsis.

Prof. Hopkins, the speaker of the evening, has been engaged in the work with the W.C.T.U. for the past five years, mostly in the State of New York. For twenty-five years he was an

DARNEY OLDFIELD AFTER HIS RECORD.

COMES WITHIN A FRACTION OF BEATING IT.

Ten Mile Race Was Made on Sandy Track and Was Very Satisfactory to the Noted Rider-Other Men Also Did Good Work.

[BY DIRECT WIRE TO THE TIMES.]
SAN FRANCISCO, Nov. 8.—[Exclusive Dispatch.] Barney Oldfield, today at the Ingleside Racing track came within one-fifth of a second of equaling the mile record he made last August at the Empire State track, New York. Teday he covered a mile in York. Today he covered a mile in 56 flat, and considering that the track was sandy, Oldfield regarded it as a more remarkable performance than his record-breaking 55 4-5 on a better

however, called very well, being apparently newcomers.

The Recreationists as usual were at it early, and at last reports some of them were still handing lead to the spoonles. C. LeBas and the Santa Monica pedestrian outfit had good sport on their preserve.

The Cerritos, Greenwing and other Bixby clubs made heavy bags, many limits being reported, the birds being of the same class as those in the Ballona district.

From now on new birds may be expected regularly. A local storm would break up the shooting for a while and might drive some birds inland, but there would be plenty more to follow them.

Prominent Railtoad Magnate at Head of the Party.

Eigar Van Eten Thinks California Citmate and Mines ate Ail Right.

"We are fore enjoying your lovely climate and incidentally looking after some mining interests," said Edgar Van Etten last night, referring to the presence in Los Angeles of himself and a party of capitalists from Roch-sater, N. Y.

Mr. Van Etten is second vice-president of the great New York Central system of railroads, of which Senator Chauncey M. Depew is the executive head. He is also general manager of the Boston and Albany Railroad, to the management of which he devotes most of his time when he is at home

big railroad men of the country, his long connection with the Vanderbilts and able management of one of the greatest of their properties, having brought him into great prominence in eastern railroad circles. Although Boston is his headquarters, he is no stranger to Southern California, as his private car has made many fips across the continent, with him in it. Climate and mines are the loadstones that draw him hither about once a year. He thinks the climate of Los Angeles superb and likes to talk about it.

"This is, what I call a lovely night, and we have been out enjoying it. Your climate—" began the magnate when approached by an interviewer, but he switched off to the subject of mines when reminded that the climate was a stale topic in these parts, and really a matter of no very great intervent to the people who live here and are enjoying it all the time. Asked what else brought him and his traveling companions here, Mr. Van Etten-said:

"We just took a run out here to look over our Bagdad mining properties in order to arrange for their further dedevelopment. During our brief sojourn we have effected a consolidation of the Bagdad and Chase mines and will breafter operate them jointly. The stockholders in the two companies were about the same, and the consolidation is for the purpose of more economical management. We have not yet arranged all the details of the reorganization, but both properties will be operated under the name of the Bagdad Mining and Milling Company. The gentlemen with me are all members of the company, Senator Depew is a stockholder, but he did not start West with us, as has been reported in some of the newspapers.

"We have been enjoying ourselves in Los Angeles and vicinity today and will put in another day seeing your wonderful city and its surroundings. Tomorrow evening at 8 o'clock we start on our return trip, stopping at Barstow, en route, to inspect our ore mill. That is positively all there is to our combined business and pleasure trip."

## Prof. Edward A. Steiner, who has spent this summer in Russia, contrib-utes this interesting account of Tol-

and which she had to decipher. "And what is this, and what is that?" he asked of one word after another, and with wrinkled forehead and blushing cheek she answered him. "And this word?" he asked again, and she said: "It means never, but it is not so," and taking the crumbling chalk from him, she wrote four letters which did not form the words of a complicated sentence, and he needed no one to ask him. "What is this, or what is that?" He knew what they meant, for all she wrote was ev-er. This declaration of his love he used in a more complicated for min his "Anna Karenina." where Levin thus declars himself to Kitty, his future wife. While in the story the mother seemed at first opposed to the union, in reality it was the father, Dr. Baer, who blustly and definitely refused to give his consent. He wished to see his oldest 'daughter married first, and not until Tolatot threatened to shoot himself if the father persisted in his refusal did he yield.—[Outlook.]
